Cairo University, Faculty of Computers & Artificial Intelligence *Giza, Egypt*
Bachelor of Science in Software Engineering *2022 – 2026*
GPA: 3.0 / 4.0 – Very Good

TECHNICAL SKILLS

Programming Languages: Python, Java, C#, C++, Prolog, JavaScript
Backend Development: FastAPI, Spring Boot, REST APIs, OOP
Frontend & Mobile: React.js, React Native, Expo, UI/UX
Databases: PostgreSQL, SQL, MongoDB
Software Testing: Manual Testing, Automation Testing, Functional Testing, Regression Testing
Authentication & APIs: JWT, OAuth 2.0, RESTful APIs
Tools & Technologies: Git, GitHub, Docker, Supabase, Jira, Linux
Design & Productivity: UI/UX, Microsoft Office, Adobe Illustrator, Adobe After Effects, Adobe Premiere Pro
Soft Skills: Problem Solving, Adaptability, Teamwork, Leadership, Communication, Presentation

EXPERIENCE

EgyProperty *Cairo, Egypt*
Software Testing & CRM Support Intern *10/2025 – 02/2026*

– Performed data entry and maintained website content, ensuring data accuracy and consistency.
– Tested the company's mobile application, identified issues, and validated application functionality.
– Troubleshot sales-related issues through the CRM and collaborated with teams to improve operational workflows.
– Created training videos and user guides to support effective CRM usage and adoption.
– Provided technical support and guidance to end users, improving daily operations and user experience.

Enactus – Cairo University
Co-Leader, Visuals Team

– Participated in a global student organization focused on developing entrepreneurial solutions to social challenges.
– Collaborated with team members to organize fundraising events and secure sponsorships from local businesses.
– Developed an entrepreneurial mindset by applying business principles to devise sustainable solutions for social issues.

PROJECTS

CVision – AI-Powered Resume Assistant & Recruitment Platform *2026*

Graduation Project *React, React Native, Expo, FastAPI, PostgreSQL, Supabase*

– Developed an AI-powered recruitment platform for resume building, CV analysis, job matching, and recruiter workflows.
– Implemented AI-powered resume analysis, ATS feedback, skill gap analysis, career roadmaps, and job recommendations using Google Gemini API.
– Built secure role-based access for candidates, recruiters, and administrators using JWT, OAuth 2.0, and RESTful APIs.
– Developed the web and mobile platform using React, React Native with Expo, FastAPI, PostgreSQL, and Supabase, with backend testing using Pytest.

CERTIFICATIONS

ISTQB® Certified Tester Foundation Level (CTFL) ITIDA / *2025*

Red Hat OpenShift: Introduction to Containers with Podman – Ver. 4.14 *Cairo University / 2025*

– Built and deployed a full-stack Angular, Python, and MongoDB application using Podman, OpenShift, and CI/CD.

Red Hat Application Development I: Programming in Java EE 7.0 *Cairo University / 2025*

– Completed Java EE training, building enterprise applications and REST APIs tested with Postman.

Red Hat System Administration | 9.3 *Cairo University / 2025*

– Covered fundamentals of Red Hat Linux system administration and CLI management.
